# Plant List

**Sherman K. and Vera B. Hardy**

**Eighty Hill St., Lexington, Mass.**

All of our plants are field grown and are therefore large in comparison to greenhouse material. We prefer to have people call and pick out their plants but if such is not possible we are in a position to ship. No orders will be filled for shipment, however, that total less than \$1.00.

*prices subject to change*

---

The Hardy Herb Gardens do have many more herbs than those listed. We feel we have as large a display of culinary herbs as you will find in this area. As our primary endeavor is concerned with the growing and preparation of culinary herbs.

To find us: At the MINUTE MAN statue take the left fork (toward Concord), bear right at next fork. Take first street on right (Cedar), next right is Hill Street. We are on the right or the first place you come to.
